## BLOCK 13102 - REDEVELOPMENT PLAN, JERSEY CITY, NJ

### I. INTRODUCTION

The Block 13102 Redevelopment Plan ("Redevelopment Plan") area was originally the western most block within the existing Paulus Hook Redevelopment Plan area ("Existing Plan Area"). The plan for which was first adopted in April 1969. The areas within the Existing Plan Area were developed in the 1970s with apartment buildings, including housing units and surface parking fields serving those buildings, consistent with planning principals at that time.

The southeastern portion of Block 13102 has been developed with a 23 story building (known alternately as Paulus Hook Towers or 100 Montgomery Street) consisting of 308 residential units and fronting Montgomery Street. The remaining portion of the block is surface parking associated with 100 Montgomery Street; this expansive surface lot extends to the adjacent streets of Warren Street, Christopher Columbus Drive, and Washington Street. The surface parking is underutilized and inconsistent with urban planning principles. This lack of utilization results in a stagnant and not fully productive condition of land that is potentially valuable for public health, safety and welfare.

The purpose of this Redevelopment Plan is to guide the continued development of the block, including the redevelopment of the surface parking area into a mixed-use residential building with ground floor commercial uses and a public school use, which will revitalize and improve the streetscape and pedestrian realm, and to create new urban open space. The new open space, although privately owned, will provide a significant new benefit to both the immediate neighborhood and the greater downtown Jersey City community. The development of a new public school will also be a benefit to the community and will help to alleviate the strain on existing public school facilities.

### II. BOUNDARIES

The Block 13102 Redevelopment Plan area is bounded by Montgomery Street on the south, Warren Street on the west, Christopher Columbus Drive on the north, and Washington Street on the east. The Redevelopment Area encompasses the entirety of Block 13102. See Map #1 – Boundary Map.

### III. REDEVELOPMENT PLAN OBJECTIVES

- A) The redevelopment of the underutilized surface parking area associated with the 100 Montgomery Street project.
- B) The construction of a mixed-use, primarily residential building, with ground floor commercial leasable space, a portion of which will include a public school, to create a more pleasant, safe and economically vibrant area.
- C) Improve sidewalk areas with new pavement, street trees and streetscape along all adjacent streets to improve pedestrian safety and the aesthetics of the pedestrian environment in this area.
- D) Provide for community benefits through the development of a public school and through the development of an open space plaza located along the corner of Warren Street and Christopher Columbus Drive.

- E) Make sustainability and smart growth a theme of future development and redevelopment that guides land use and transportation decisions.
- F) Reduce automobile dependency by encouraging high density development in close proximity to mass transit and neighborhood services with low automobile parking ratios and with bicycle parking requirements.
- G) Leverage new transit facilities such as light rail to accommodate housing and employment needs.
- H) Provide for a wide variety of housing types, sizes, and price points that meet the needs of Jersey City's diverse population.
- I) To promote balanced development in accordance with applicable State laws and city requirements regarding affordable housing.
- J) Creation of new employment, housing, educational, recreational, commercial and retail opportunities for the residents of Jersey City.

The Planning Board may also grant such relief in an application relating to a specific piece of property where the purposes of this Redevelopment Plan would be advanced by a deviation from the strict requirements of this Plan and the benefits of the deviation would outweigh any detriments. No relief may be granted under the terms of this section unless such deviation or relief can be granted without substantial detriment to the public good and will not substantially impair the intent and purpose of the Redevelopment Plan. Any deviation that would otherwise constitute a "d" type variance or deviation constitutes a request for a legislative plan amendment cognizable only by the Governing Body. Any zoning related question that is not addressed herein shall refer to the LDO for clarification. No variance/deviation from the requirements herein shall be cognizable by the Zoning Board of Adjustment. The Planning Board alone shall have the authority to grant development decisions and /or deviations from the requirements of this Plan, as provided herein. Upon final adoption of this Plan by the Jersey City Council ("City Council"), the City's Zoning Map shall be amended to show the boundary of the Redevelopment Area.

The Redevelopment Plan enables for improvement of the pedestrian circulation system along Christopher Columbus Drive, and to and from the PATH and Light Rail Stations at Grove Street, Montgomery Street, and Exchange Place.
